

## Technical Skills

- **Languages:** Python, JavaScript, Ruby
- **Frameworks:** Node.js, AngularJS, Rails, Django/Flask
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Hosting Platforms:** Amazon EC2
- **Version Control:** Git, GitHub
- **Libraries:** jQuery
- **Markup:** HMTL/HTML5
- **Style:** CSS/CSS3, Bootstrap
- **Other skills:** Sockets, NGINX, Rails TDD

## Projects

- **AirAlien:** This program was modeled after AirBnB, an online marketplace for the hospitality service. Technologies used: Ruby on Rails, Bootstrap, jQuery, and Google Maps API.
- **Like/Unlike:** This app allows users to posts ideas and like other people's posts. Technologies used: Ruby on Rails and Bootstrap.
- **Friends:** This app helps users to make new friends and find friends in common with other users. Technologies used: Bootstrap, Django, and Python.
- **Travello:** This app allows user to make and coordinate travel plans with friends. Technologies used: Django, Bootsrap, and Python.

## Professional Experience

- **Web Developer.** *Stance Branding* (Las Vegas, NV). Nov. 2016 – Present  
I collaborate remotely with others to develop web applications using technologies such as Ruby on Rails, Python, Django, Flask, JavaScript, and Angular JS.
- **Graduate Student Intern.** *Massachusetts State House* (Boston, MA). Jan. 2016 – May 2016  
I engaged in social work advocacy for vulnerable populations.
- **Graduate Student Instructor.** *Wheelock College* (Boston, MA). Jan. 2016 – May 2016  
I taught and supervised undergraduate students under faculty supervision.
- **Graduate Student Coordinator.** *Wheelock College* (Boston, MA). Sept. 2015 – May 2016  
I managed the Student Policy Fellows Program.
- **Clinical Social Worker.** *Northeast Center for Youth & Families* (Medford, MA). Sept. 2014 - May 2015  
I worked for a foster care agency placing and assisting foster children.

## Education

**Certificate.** *Coding Dojo* (San Jose, CA). Full Stack Web Development Program (Nov. 2016 Cohort).

Description: Intensive 14-week onsite program for web development, learning three full stacks: Python, MEAN, and Ruby.

**Master of Social Work (M.S.W).** *Wheelock College* (Boston, MA). Dept. of Social Work.

**Bachelor of Science (B.S.)** *State Univ. of New York - ESF* (Syracuse, NY). Environmental Biology.

## Other

I first dabbled in UI/UX in order to help my physician husband who co-founded a healthcare start-up called *Jinn Systems*. Our team was flown out for an interview at *TCombinator*, Silicon Valley's premier seed accelerator. Although we were ultimately unsuccessful, the experience was transformative and convinced me of the importance of computer programming.
